

ALL THE PLACES OF THE BIBLE

This article identifies all of the places named in the Bible, excluding the deuterocanonical books. The place names are arranged alphabetically as they appear in the King James Version, with variant spellings enclosed in brackets []. The suggested meaning of the names is then given in parentheses (). Under each entry, various places bearing this name are differentiated by boldface brackets, like this [1] ; [2]; and so on. Then follows a description of each place, with several Bible references to it.

The meanings of the names are not infallibly accurate; they are simply interesting possibilities. These place names are ancient, many are pre-Israelite, and their history is obscure and uncertain.

Often a Hebrew name refers to both a place and a person. In such cases, you will find the same name in "All the People of the Bible."

Different names were used to refer to certain sites in different periods of history (e.g., Accho and Ptolemais). We have grouped these names under the most familiar biblical name, cross-referencing the other names to it. Modern place names are given under most of the biblical names.
